Case No. CP-89-04

By application filed September 1, 1989, Suggs Transportation Services, Inc. (Suggs or applicant), seeks authorization to conduct charter operations pursuant to WMATC Special Certificate of Public Convenience and Necessity No. 1 under contract with the Federal Aviation Administration transporting U.S. Department of Transportation employees between the Federal Aviation Administration Headquarters, 800 Independence Avenue, S.W., Washington, DC, and the Tariff Building, 701 E Street, N.W., Washington, DC.

Order No. 3402, served September 7, 1989, generally describes the evidence submitted with the application and that order is incorporated herein by reference. The Commission required the filing of evidence showing that the contract option has been exercised. It also required the submission of affidavits of publication and vehicle identification. Applicant complied with these requirements.

Commission Regulation No. 70 provides that an application of this type will be granted if it is determined that the applicant is fit, willing, and able to perform the proposed service properly and to conform to the provisions of Regulation No. 70. The issue of whether the public convenience and necessity require such service has been determined in Case No. MP-79-04. See Order No. 2004, served June 20, 1979.

Inasmuch as the contract is for a fixed term of at least 181 days and provides for the transportation of employees by their employer, the Commission finds that this application conforms to the requirements of Commission Regulation No. 70. It is further found, based on the evidence of record as described in Order No. 3402, that applicant is fit, willing, and able properly to provide the service described above and to conform to the requirements of the Compact and the rules, regulations, and orders of the Commission.

The application is hereby granted, and Special Authorization No. SP-79-09 will be issued forthwith.

IT IS SO ORDERED.
