Application of RAD AKORLI, Trading)

for a Certificate of Authority -- )  
Irregular Route Operations )

Case No. AP-2000-26

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

The Compact, Title II, Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

Applicant owns a sedan licensed as Diamond Cab No. 314 in the District of Columbia. But applicant proposes operating a separate vehicle, a van, under WMATC authority. Applicant's proposed tariff contains rates for transportation under the DC Medicaid program.

Applicant filed a statement of net worth as of December 31, 1999, showing assets of \$77,341 and no liabilities. Applicant's projected operating statement for the first twelve months of WMATC operations shows WMATC revenue of \$82,000; expenses of \$56,087; and net income of \$25,913.

Applicant certifies he has access to, is familiar with, and will comply with the Compact and the Commission's rules and regulations thereunder.

Based on the evidence in this record, the Commission finds that the proposed transportation is consistent with the public interest and that applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

Applicant is admonished that he may neither use a taxicab in WMATC operations nor use a WMATC vehicle in taxicab operations.<sup>1</sup>
