Certificate of Authority —)
Irregular Route Operations)

Case No. AP-2002-43

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

The Compact, Title II, Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

Applicant proposes commencing operations with one van. Applicant's proposed tariff contains rates for Medicaid transportation and non-Medicaid transportation, including rates for transportation to and from Ronald Reagan Washington National and Washington-Dulles International Airports.

Applicant filed a balance sheet as of March 16, 2002, showing assets of \$21,411; loans from officers/owners of \$16,000; and equity of \$5,411. Applicant's projected operating statement for the first twelve months of WMATC operations shows WMATC revenue of \$20,000; other revenue of \$6,000; expenses of \$31,749; and net loss of \$5,749.

Although applicant is projecting a net loss during the first year of WMATC operations, applicant's current assets and projected cash flow are sufficient to cover both current liabilities and projected expenses. We have found other applicants financially fit under similar circumstances.¹

Applicant certifies it has access to, is familiar with, and will comply with the Compact and the Commission's rules and regulations thereunder.

Based on the evidence in this record, the Commission finds that the proposed transportation is consistent with the public interest and that applicant is fit, willing, and able to perform the proposed
