

WASHINGTON METROPOLITAN AREA TRANSIT COMMISSION

WASHINGTON, DC

ORDER NO. 7984

IN THE MATTER OF:

Served April 29, 2004

Application of AMERIPARK, INC.,)
for a Certificate of Authority --)
Irregular Route Operations)

Case No. AP-2004-26

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

Applicant's president, Ebenezer Asamoah, is also the president of Charity Transportation, Inc., WMATC No. 483.

Applications for certificates of authority are governed by Title II of the Compact, Article XI, Section 7. Applications for approval of common control are governed by Article XII, Section 3.

I. CERTIFICATE OF AUTHORITY

Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

Applicant proposes commencing operations with one van. Applicant's proposed tariff contains rates for transportation under the DC Medicaid program.

Applicant verifies that: (1) applicant owns or leases, or has the means to acquire through ownership or lease, one or more motor vehicles meeting the Commission's safety requirements and suitable for the transportation proposed in this application; (2) applicant owns, or has the means to acquire, a motor vehicle liability insurance policy that provides the minimum amount of coverage required by Commission regulations; and (3) applicant has access to, is familiar with and will comply with the Compact, the Commission's rules, regulations and orders, and Federal Motor Carrier Safety Regulations as they pertain to transportation of passengers for hire.

Based on the evidence in this record, the Commission finds that the proposed transportation is consistent with the public interest and

that applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

II. COMMON CONTROL

Article XII, Section 3(a)(iii) & (c), authorizes the Commission to approve common control of two or more WMATC carriers, through ownership of stock or other means, if the Commission finds that common control is consistent with the public interest. The public interest analysis focuses on the fitness of the controlling party, the resulting competitive balance, and the interest of affected employees.¹

Analysis of the relevant factors supports a finding of consistency with the public interest. First, a presumption of the controlling party's fitness obtains where the controlling party, in this case Mr. Asamoah, controls an existing WMATC carrier.² There should be no adverse effect on competition. Each commonly-controlled carrier will be operated independently of the other, and the Commission's records show that many other carriers presently serve this market. The interests of affected employees is not an issue where an applicant has no prior operations.³

Each carrier is admonished to keep its assets, books, finances and operations completely separate from the other's. Sharing of office space will be allowed, but this should not be construed as permission to share revenue vehicles or operating authority.⁴

THEREFORE, IT IS ORDERED:

1. That upon applicant's timely compliance with the requirements of this order, Certificate of Authority No. 921 shall be issued to Ameripark, Inc., 1718 M Street, N.W., #144, Washington, DC 20036.

2. That applicant may not transport passengers for hire between points in the Metropolitan District pursuant to this order unless and until a certificate of authority has been issued in accordance with the preceding paragraph.
