-- Irregular Route Operations)

Case No. AP-2023-015

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

This is the third application for WMATC authority associated with applicant's owner, Lucy Watkins. The first was filed in Ms. Watkins' name as a sole proprietor and was conditionally approved in 2018, but the issuance of a certificate of authority was expressly made contingent on filing additional documents and passing a vehicle inspection conducted by Commission staff.¹ Ms. Watkins failed to satisfy the conditions for issuance of operating authority within the time allotted, thereby voiding the Commission's approval.²

Ms. Watkins filed a second application and was granted operating authority again in 2020, but the issuance of a certificate of authority was again expressly made contingent on filing additional documents and passing a vehicle inspection conducted by Commission staff.³ Ms. Watkins failed to satisfy the conditions for issuance of operating authority within the time allotted, thereby voiding the Commission's approval for a second time.⁴

The Compact, Title II, Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed

transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

Applicant verifies that: (1) applicant owns or leases, or has the means to acquire through ownership or lease, one or more motor vehicles meeting the Commission's safety requirements and suitable for the transportation proposed in this application; (2) applicant owns, or has the means to acquire, a motor vehicle liability insurance policy that provides the minimum amount of coverage required by Commission regulations; and (3) applicant has access to, is familiar with and will comply with the Compact, the Commission's rules, regulations and orders, and Federal Motor Carrier Safety Regulations as they pertain to transportation of passengers for hire.

Based on the evidence in this record, the Commission finds that the proposed transportation is consistent with the public interest and that applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

In closing, applicant is cautioned that in the event it fails to obtain a certificate of authority in this proceeding for failure to timely satisfy the conditions stipulated in this order, the three-strike rule in Regulation No. 66-01 will bar applicant from reapplying for WMATC operating authority for a period of one year as measured from the end of the 180-day compliance period associated with this application.⁵
