Case No. CP-89-01

By application filed May 10, 1989, Dynamic Concepts, Inc. (applicant or DCI), seeks authorization to conduct charter operations pursuant to WMATC Special Certificate of Public Convenience and Necessity No. 1 under a contract with the U.S. Department of the Interior, Minerals Management Service (MMS) transporting government employees and persons traveling on official business with MMS together with mail, express, and baggage in scheduled operations between the Atrium Building, located at 381 Elden Street, Herndon, VA, and the Department of the Interior Building, located on C Street between 18th and 19th Streets, N.W., Washington, DC.

Order No. 3336, served May 11, 1989, generally described the evidence submitted with the application, and that order is incorporated herein by reference. By Order No. 3336 the Commission required publication of notice and the submission of additional information. Applicant complied with the requirements and no protests to the application were received by the Commission within the time set therefor.

Commission Regulation No. 70 provides that an application of this type will be granted if it is determined that the applicant is fit, willing, and able properly to perform the proposed service and to conform to the provisions of the Compact and the rules, regulations, and orders of the Commission thereunder, and if it is determined that the proposed operations conform to the provisions of Regulation No. 70. The issue of whether the public convenience and necessity require such service has been determined in Case No. MP-79-04. See Order No. 2004, served June 20, 1979.

Inasmuch as the contract is for a fixed term of at least 181 days and provides for the transportation of persons traveling on official business with a government agency and for the transportation of employees pursuant to a contract with their employer, the Commission finds that this application conforms to the requirements of Commission Regulation No. 70. It is further found, based on the evidence of record as described in Order No. 3336, that applicant is fit, willing, and able properly to provide the service described above and to conform

to the requirements of the Compact and the rules, regulations, and orders of the Commission thereunder. Applicant has a current certificate of insurance on file with the Commission. An appropriate authorization shall issue.

IT IS SO ORDERED.
