Certificate of Authority --)
Irregular Route Operations)

Case No. AP-2002-39

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

The Compact, Title II, Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

An applicant bears the burden of establishing financial fitness, operational fitness, and regulatory compliance fitness.¹ To establish financial fitness, an applicant must show the present ability to sustain operations during the first year under WMATC authority.²

Applicant's statement of net worth shows \$1,500 in cash, no revenue vehicle and no commercial auto insurance. Applicant cannot obtain a vehicle and insurance and establish an adequate reserve for contingencies on such little initial capital. Accordingly, we are unable to find applicant financially fit on this record.³
